Amova ARK Disruptive Innovation Fund

Fund Update: Quarter 3/2026 ending 30 September 2026

What is the purpose of this update?

This document tells you how the Amova ARK Disruptive Innovation Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Amova NZ prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The fund aims to outperform the benchmark of an absolute return of 10% per annum over a rolling five-year period before fees, expenses and taxes. The fund provides access to a global share portfolio that offers thematic exposure to disruptive innovation across a number of sectors, and geographies.

Total value of the fund	$17,125,426
The date the fund started	4 September 2019

What are the risks of investing?

Risk indicator for the Amova ARK Disruptive Innovation Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at https://sorted.org.nz/tools/investor-profiler/.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five-year period to September 2026. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

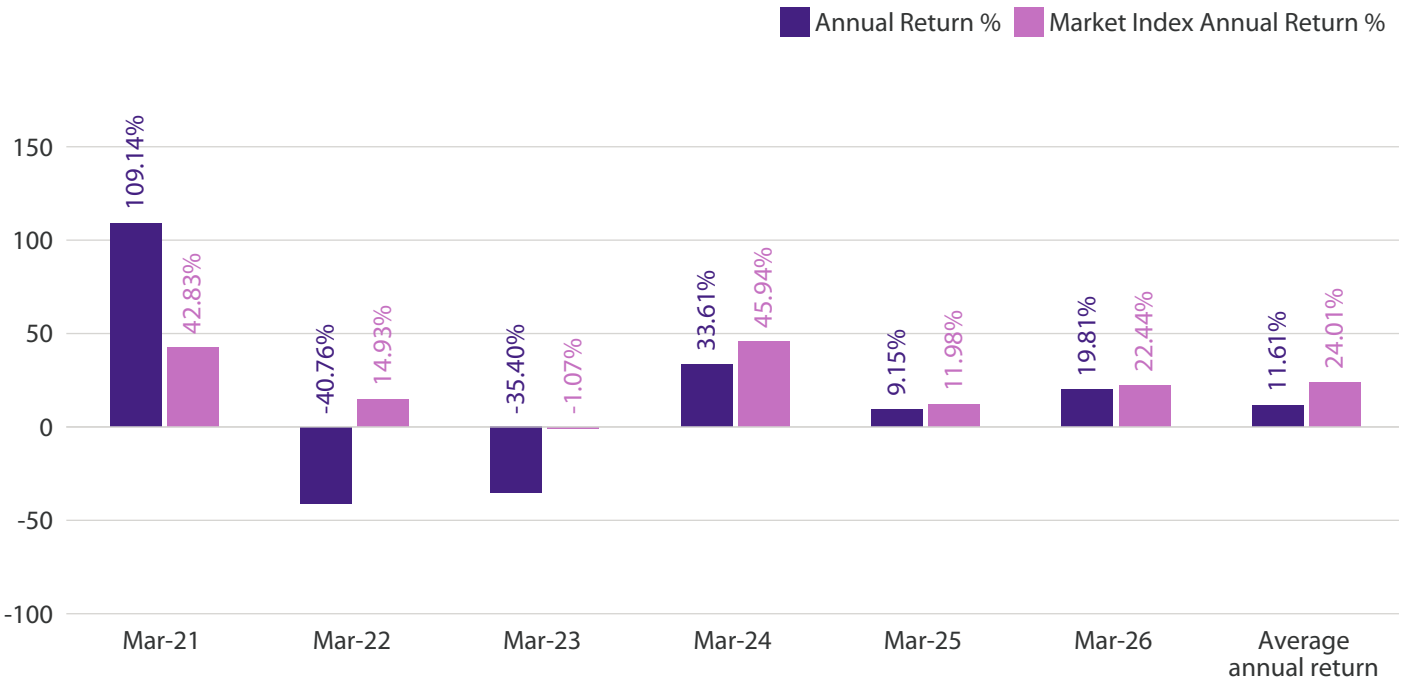

How has the fund performed?

	Average over past 5 years	Past year
Annual return *(after deductions for charges and tax)*	-0.14%	11.56%
Annual return *(after deductions for charges but before tax)*	0.88%	12.69%
Market index annual return *(reflects no deduction for charges and tax)*	21.05%	27.41%

The market index on which the annual return is based is NASDAQ-100 Notional Net Total Return Index Unhedged in NZD.

Additional information about the market index is available on the offer register at https://disclose-register.companiesoffice.govt.nz.

Annual Return Graph[1]

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Amova ARK Disruptive Innovation Fund are charged fund charges. In the year to 31 March 2026, these were (inclusive of GST where applicable):

	% of net asset value
Total fund charges	1.30%
Which are made up of:	
Total management and administration charges	1.30%
Including:	
Manager's basic fee	1.30%
Other management and administration charges	0.00%
Total performance-based fees	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Amova ARK Disruptive Innovation Fund PDS for more information about those fees.

Example of how this applies to an investor

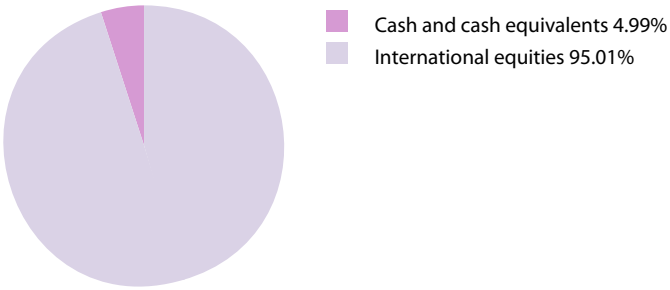

Small differences in fees and charges can have a big impact on your investment over the long term.

Sam had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sam received a return after fund charges were deducted of $1,269 (that is 12.69% of his initial $10,000.00). Sam also paid no other charges. This gives Sam a total return after tax of $1,156 for the year. [2]
