Dated 14 May 2026

This document replaces the  
Product Disclosure Statement  
dated 15 December 2025

Issued by Amova Asset Management  
New Zealand Limited

# 1. Key information summary

## What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Amova Asset Management New Zealand Limited (**Amova NZ, we, us or our**) will invest your money and charge you a fee for its services. The returns you receive are dependent on our investment decisions and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

## What will your money be invested in?

GoalsGetter KiwiSaver Scheme (**Scheme**) has a range of funds available to invest in.<sup>1</sup> A diversified fund which invests in underlying funds offered by Salt Investment Funds, and another which invests in an underlying fund offered by Pathfinder Funds Management, are included in this Product Disclosure Statement (**PDS**). These investment options are summarised below. More information about the investment target and strategy for each investment option is provided at Section 3.

Fund name	Description and investment objectives of the underlying fund	Risk indicator <sup>2</sup>	Estimated annual fund charges <sup>3</sup> <small>(% p.a. of Net Asset Value (NAV))</small>	Indicative Buy/Sell spread for each investment/redemption <sup>5</sup>
GoalsGetter Salt Capital Growth Fund <sup>^^</sup>	Aims to outperform the Reserve Bank of New Zealand's Consumer Price Index +5% p.a. benchmark (after fees and expenses but before tax) on a rolling five-year basis by investing in a diversified mix of growth and defensive assets with a focus on securities with high ESG factor scores.  Medium to high level of volatility.		1.30% <sup>^</sup>	0.20%/0.20%
GoalsGetter Pathfinder Ethical Growth Fund	An ethical portfolio invested in growth and income assets. The Fund undertakes ethical investing to achieve medium to high returns with a higher risk focus.  Medium to high level of volatility.		1.55%  Includes external costs (estimated): 0.10%	-

**Other charges:** In addition, you will be charged a member fee of \$30 p.a., irrespective of how many funds you invest in. All fees and expenses are inclusive of GST where applicable.

**If you are receiving additional financial advice, servicing and advice fees may also be applicable<sup>4</sup>**

<sup>1</sup>For information on investment options not covered by this PDS, the other relevant PDS can be found at <https://www.goalsgetter.co.nz/pds-and-other-information>

<sup>2</sup>As the funds have existed for less than 5 years; appropriate market index returns have been used to calculate the risk indicator for the period to April 2024. As a result of market returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

<sup>3</sup>Annual fund charges include an estimate of applicable underlying fund charges.

#### <sup>4</sup> Servicing and advice fees:

- A servicing and advice fee of 0.20% per annum is included in the fund fee.
- If we have received an instruction from you to deduct an additional agreed fee payable to your financial adviser, we will deduct that agreed fee as a servicing and advice fee. This fee is capped at 0.30% per annum (incl. GST) and is paid monthly by redemption of units you hold, until you advise us that you no longer wish us to pay that fee.
- If you have received financial advice about joining or transferring to the GoalsGetter KiwiSaver Scheme, your Financial Adviser may receive additional servicing and advice fees that are paid for by Amova NZ

<sup>5</sup>These buy/sell spreads are stated as at the date of the PDS and are indicative only. See <https://www.goalsgetter.co.nz/our-fees?tab=other-specific-fees> for current rates.

<sup>^</sup> The annual fund charges are an estimated percentage of the net asset value of a fund. However, your annual fund charges are calculated based on the gross asset value of your investment in a fund. As a result, the amount of annual fund charges you may pay may differ from the estimates shown in this table.

<sup>^^</sup> On 13 July 2025 Salt Sustainable Growth Fund changed its name to the Salt Capital Growth Fund

**See Section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/tools/investor-profiler/>.**

## Who manages the Scheme?

Amova is the Manager of the Scheme. See Section 7 for details.

## How can you get your money out?

Generally, you cannot withdraw your KiwiSaver savings until you reach 65.

In some circumstances (such as buying your first home, suffering a serious illness or significant financial hardship, death, and permanent emigration to somewhere other than Australia), you may be able to withdraw some or all of your KiwiSaver savings early.

See Section 2 for more information.

## How will your investment be taxed?

The Scheme is a portfolio investment entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 10.5%, 17.5%, or 28%. See Section 6 for more information.

## Where can you find more key information?

Amova NZ is required to publish quarterly updates for the funds. The updates show the returns and the total fees actually charged to investors during the previous year. The latest fund updates are available at [https://www.goalsgetter.co.nz/historic\\_qfus](https://www.goalsgetter.co.nz/historic_qfus). Amova will also give you copies of those documents on request.

## 2. How does this investment work?

This PDS offers membership of the Scheme. KiwiSaver is a long-term savings plan designed to help you save for your retirement.

The Scheme is a registered KiwiSaver scheme under the Financial Markets Conduct Act 2013 and is a trust which is governed by the Trust Deed dated 20 December 2017 as amended 15 June 2021 (the **Trust Deed**).

### About the GoalsGetter KiwiSaver Scheme

The Scheme provides you access to a range of investment options across a selection of investment managers via the online GoalsGetter platform. You can invest in as many funds as you wish, and you can change your fund choice(s) at any time.

The Scheme offers the following investment options:

Diversified Funds – The funds invest in a mix of asset classes such as cash, fixed interest, shares and property.

Other Funds – Funds invested predominantly in a specific market or asset class that you can use to select your own strategy.

Your money is held on trust by the supervisor and pooled with the money of other investors in the fund(s). We invest this money on behalf of all investors in the fund.

The money you invest buys units in the fund(s) you select. Each unit has a price which is usually calculated on each business day by dividing the total net value of the fund's assets by the number of the fund's units on issue. The fund's assets are valued independently of us. The value of your investment will be affected by any change in the value of the fund's assets which is reflected in the fund's unit price.

Units give you the right to the returns from the assets of the fund, but do not give you legal ownership of any particular asset of the fund. The assets of each fund are not available to meet the liabilities of any other fund in the Scheme.

### What are the benefits?

The key benefits of investing in the Scheme include:

your money is actively managed by investment professionals.

the Scheme has a range of investment options to suit different types of investors and allows you to combine funds from a range of investment managers.

### Joining the Scheme

If you are not already a KiwiSaver member, you can join the Scheme by applying to us directly if you are:

a New Zealand citizen (or entitled to New Zealand permanent residency); and  
living or normally living in New Zealand.

If you are already a KiwiSaver member, you can transfer from another KiwiSaver scheme.

We may in our absolute discretion accept or refuse to admit any person as a member.

### Making investments

As at the date of this document, if you are an employee, your KiwiSaver contributions must be made at a rate of 3.5%, 4%, 6%, 8% or 10% of your gross (before-tax) salary or wages. If you do not choose a contribution rate, your contributions will be deducted at the 3.5% rate. The contributions are made from your after-tax salary or wages. You can change your contribution rate at any time or take a "savings suspension" of between three months and one year (generally only after contributing for a year), which can be extended.

If you are self-employed, not working or wish to make voluntary contributions to your KiwiSaver account, you can make one-off or regular lump sum payments.

### Employer contributions

Your employer will generally also contribute a minimum of 3.5% of your before-tax pay, if:

you are aged 16 or over and below your Qualifying Age; and  
are contributing to KiwiSaver through your pay.

Employer Superannuation Contribution Tax is deducted from employer contributions.

## Changes to default contribution rates

From 1 April 2026, the default contribution rate for employees and compulsory contribution rate for employers increased as per the table below. From 1 April 2026, members aged 16 years and over became eligible for compulsory employer contributions.

Type of contribution	Contribution rate	Effective date
Employee	3.5%	1 April 2026
	4%	1 April 2028
Employer	3.5%	1 April 2026
	4%	1 April 2028

## Government Contributions

If you are eligible, the Government will also pay you a government contribution at the rate of 25 cents for every dollar you contribute, up to a maximum of \$260.72 each year (1 July to 30 June).

Eligibility for the government contribution will be restricted to those with an annual taxable income of \$180,000 per annum or less

Members aged 16 and over will be eligible for government contributions

For more information see <https://www.ird.govt.nz/kiwisaver/kiwisaver-individuals/growing-my-kiwisaver-account/getting-the-kiwisaver-government-contribution>

The minimum ongoing voluntary contribution amount is \$20

There is no minimum initial investment amount.

## Withdrawing your investments

You're eligible to withdraw all your KiwiSaver savings when you reach the New Zealand superannuation qualification age (currently 65).

On reaching New Zealand superannuation qualification age, you can:

- Withdraw your full investment, in which case your account will be permanently closed.
- Withdraw part of your investment; and/or
- Make regular withdrawals

You may be able to withdraw all or part of your KiwiSaver savings early in certain limited circumstances.

The table below shows the main types of withdrawal options available to you, and what you can withdraw.

<sup>1</sup> You received the \$1,000 kick-start contribution if you first joined KiwiSaver before 2pm, 21 May 2015.

<sup>2</sup> If you make a withdrawal on these grounds, this will forfeit your entitlement to further GVC and CEC.

<sup>3</sup> You must leave a minimum balance of \$1,000 in your KiwiSaver account. Other conditions apply. See the Other Material Information document at <https://www.goalsgetter.co.nz/pds-and-other-informationfurther information>.

<sup>4</sup> You can only transfer your entire balance to an Australian complying superannuation fund.

You can also access your savings where any Act or court order requires a withdrawal.

For more information about withdrawals, see the Other Material Information document at <https://www.goalsgetter.co.nz/pds-and-other-information>.

You can obtain the required forms by contacting us. You will need to satisfy the legal requirements and our processes before you can make a withdrawal from your KiwiSaver account.

There is no Crown guarantee in respect of any KiwiSaver scheme or investment product of a KiwiSaver scheme.

## How to switch between funds

You can switch to another fund at any time. A switch is treated as an application and withdrawal, consequently, a switch between the funds may typically take 5-10 days to complete. For a portion of this time, you will not have market exposure.

Switches may incur a buy/sell spread or swing price adjustment depending on the funds you are in or select to switch to.

We may delay or decline the switch without providing a reason. This PDS is for the GoalsGetter KiwiSaver Scheme - Salt Investment Funds and Pathfinder Funds Management Funds. Information including PDS' for the other funds available in the Scheme can be found at <https://www.goalsgetter.co.nz/our-kiwisaver-scheme>.

## Responsible investment

Responsible investment, including environmental, social, and governance considerations, are taken into account in the investment policies and procedures of the Scheme as at the date of this product disclosure statement. You can obtain an explanation of the extent to which responsible investment is taken into account on each manager's website:

<https://www.saltfunds.co.nz/sustainable>

<sup>1</sup>Refer Section 4 'What are the risks of investing?' for further explanation of the risk indicator.

More details on the aim and investment strategy of each fund are set out in the Statement of Investment Policy and Objectives (SIPO) for the Scheme. We may change the SIPO from time to time by prior notice to the supervisor, without notifying you. Material changes will be advised in the Scheme's annual report. The current SIPO can be found on the Disclose register at <https://disclose-register.companiesoffice.govt.nz/>.

Further information about the assets in a fund can be found in the fund updates (when available) at [https://www.goalsgetter.co.nz/historic\\_qfus](https://www.goalsgetter.co.nz/historic_qfus)

## 4. What are the risks of investing?

### Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

For the Risk Indicator for each fund, see the “Key Information Summary” Section.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/tools/investor-profiler/>

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading “Other specific risks”) that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance.

As the funds have existed for less than 5 years, appropriate market index returns have been used to calculate the risk indicator for the period to April 2024, and fund returns from May 2024 to April 2026. As a result of market returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for the fund.

### General investment risks

Some of the things that may cause a fund’s value to move up and down, which affect the risk indicator, are:

**Asset allocation** will impact the overall returns of the fund as the largest determinant of returns and volatility is the proportionate allocation to different underlying assets.

**Interest rates:** An increase in interest rates results in the capital value of fixed interest investments falling. A decrease in interest rates results in the capital value of fixed interest investments rising.

**Market:** Economic, technological, political and legal factors and market sentiment can change. These changes may affect the value of financial products in investment markets, a fund’s investments and the value of the units in the fund.

**Credit:** Interest earning securities represent loans to borrowers that include central and local government, registered banks and companies. Credit risk is the risk that a borrower may default on interest or capital repayments.

**Currency:** When the NZ currency appreciates or depreciates relative to the currency of the country in which the fund invests, the return on or value of your investment may be reduced where the NZ dollar rises or falls relative to other currencies.

**Company specific:** A specific company’s business outlook may deteriorate because of management changes, strategy decisions, competitor activities or declining demand for its products or services. Where a fund invests in the securities of companies affected by these circumstances, investors’ returns from their investment may be negatively affected.

**Liquidity:** An investment may not be able to be sold quickly enough to prevent or minimise a loss. A lack of liquidity may also affect the amount of time it takes to satisfy withdrawal requests.

**Derivative:** Derivatives, such as options, futures, and swaps, may be used by a Fund for hedging and other purposes. The risks of using derivatives include: the value of the derivative failing to move in line with the underlying asset, potential illiquidity of the derivative, the possibility that the derivative position is difficult or costly to reverse, the derivative not performing as expected, and counterparty risk. A fund that uses derivative’s investment movements may be more volatile than a fund with no derivative exposure.

## Other specific risks

**Fund selection:** There is a Scheme specific risk relating to the selection of the underlying fund managers who are responsible for managing the underlying funds that the Scheme's funds invest into. We mitigate this risk by having an appropriate fund manager selection and monitoring process. However, there is the risk an underlying fund manager underperforms compared to other fund managers.

**Liquidity in private equity/unlisted asset classes:** The Pathfinder Ethical Growth Fund can invest in private equity and debt investments as well as listed investments. Compared to listed investments, private investments may be more difficult to sell, harder to value and be in connection with smaller companies.

### Related party transaction risk

Related party transaction risk relates to potential conflicts when the investor and owner of the asset are related parties. The Pathfinder Ethical Growth Fund may invest in other funds managed by Pathfinder or Alvarium, as well as in private assets or loans (either directly or via other funds) involving an entity associated with Pathfinder. These would be considered related party transactions. Pathfinder disclose that conflicts are managed by ensuring that all transactions giving rise to a related party benefit comply with requirements of the Financial Markets Conduct Act 2013 and their Related Party Transaction Policy. This procedure requires Pathfinder to certify that the transaction, or series of transactions, is permitted by the Financial Market Conduct Act 2013.

See the OMI document on the offer register for each of the Underlying Managers at <https://disclose-register.companiesoffice.govt.nz/> for more information about risks.

## 5. What are the fees?

You will be charged fees for investing in the Scheme. Fees are deducted from your investment and will reduce your returns. If we invest in other funds, those funds may also charge fees. Fees are charged in two ways:

regular charges - (e.g. annual fund charges). Small differences in these fees can have a big impact on your investment over the long term.

one-off fees - (e.g. individual action fees).

### Estimated annual fund charges (% of net asset value)

Fund	Management Fee	Other Expenses <sup>^</sup> and performance fees	Estimated Annual Fund Charges
GoalsGetter Salt Capital Growth Fund	1.30%	n/a	1.30% <sup>^^</sup>
GoalsGetter Pathfinder Ethical Growth Fund	1.45%	0.10% <sup>^</sup>	1.55%

<sup>^</sup> estimated external costs – This is an estimate of charges the underlying Manager may incur for investing in other funds. For this fund, the other funds are the Green Bond Fund and the Pathfinder Wholesale Ethical Fixed Income Fund.

<sup>^^</sup> The annual fund charges are an estimated percentage of the net asset value of a fund. However, your annual fund charges are calculated based on the gross asset value of your investment in a fund. As a result, the amount of annual fund charges you may pay may differ from the estimates shown in this table.

**Other charges:** In addition, you will be charged a member fee of \$30 p.a., irrespective of how many funds you invest in.

**GST:** The Underlying Manager fees and expenses are exclusive of GST where applicable.

### Management Fee

We charge an annual management fee to each fund which is used to pay for the management of the relevant fund's assets, including underlying investment costs, the supervisor's fee and fund administration costs (such as audit fees, registry services and unit pricing).

The funds invest in related Amova funds. There is no charge to the funds for these investments.

Annual fund charges are calculated and accrued daily and reflected in the unit price. The management fee is paid monthly to us.

### Servicing and Advice Fees

- A servicing and advice fee of 0.20% per annum is included in the fund fee. This fee is paid to your adviser for the advice they are providing to you about your investment in the GoalsGetter KiwiSaver Scheme. If you are not receiving financial advice in relation to the GoalsGetter KiwiSaver Scheme, this fee is used to further develop the GoalsGetter advice tool which you are able to access at any time.
- If we have received a letter of instruction from you to deduct an agreed fee payable to your financial adviser, we will deduct that agreed fee as an additional servicing and advice fee. This fee is capped at 0.30% per annum (incl. GST) and is paid monthly by redemption of units you hold, until you advise us that you no longer wish us to pay that fee.
- If you have received financial advice about joining or transferring to the GoalsGetter KiwiSaver Scheme, your Financial Adviser may receive additional servicing and advice fees that are paid for by Amova NZ.

Further information is available in the Servicing and Advice Fees document on Disclose at <https://disclose-register.companiesoffice.govt.nz/>

### Individual action fees and trading costs

There are currently no contribution, establishment, termination, withdrawal or switching fees being charged to the funds offered under this PDS. We can introduce these fees in the future as set out in the Trust Deed.

You may be charged other fees on an individual basis for investor-specific decisions or actions.

## Buy/sell spreads – Salt Capital Growth Fund only

Investors are currently charged a buy/sell spread to reflect the associated transaction costs of buying or selling units in a Fund. These reflect the Underlying Manager's estimate of the brokerage and other costs incurred when units are purchased or redeemed. The spread is deducted from the relevant amount at the time you invest or withdraw. The spread is retained in the relevant Fund and ensures other investors entering and exiting the Fund do not adversely affect the returns on your investment. No spreads are charged on units issued as a result of distribution re-investment.

As at the date of this PDS, the buy/sell spread is 0.20% for each investment/redemption.

## Other charges

### Member fee

The member fee is calculated at the rate of \$2.50 per member per calendar month (or part month) and represents an annual fee of \$30. It is used to pay for the general administration of your account.

## Example of how fees apply to investors

Sam invests \$10,000 in the GoalsGetter Salt Capital Growth Fund. The starting value of his investment is \$10,000.

He is charged management and administration fees, which work out to about \$130.00 (1.30% of \$10,000). These fees might be more or less if his account balance has increased or decreased over the year.

Over the next year, Sam pays other charges of \$30.

## Estimated total fees for the first year

Fund charges: \$130.00

Other charges: \$30

Trading costs: \$0

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the GoalsGetter Salt Capital Growth Fund. If you are considering investing in other funds or investment options in the Scheme, this example may not be representative of the actual fees you may be charged.

## The fees can be changed

We can introduce new fees or change the annual fund charges and other fees outlined in this section. Any change to the fees will be made in accordance with the Amova NZ Trust Deed.

Amova must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at [https://www.goalsgetter.co.nz/historic\\_qfus](https://www.goalsgetter.co.nz/historic_qfus)

## 6. What taxes will you pay?

The funds are portfolio investment entities. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to <https://www.ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate>. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell Amova your PIR when you invest or if your PIR changes. If you do not tell Amova, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR, you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR, any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you.

## 9. Where you can find more information

Further information relating to the Scheme and the funds (for example, financial statements, annual reports, quarterly fund updates, the Trust Deed and SIPO) is available on Disclose at <https://disclose-register.companiesoffice.govt.nz/> and a copy of information on the offer register or schemes register is available on request to the Registrar of Financial Service Providers. You will not be charged any fee to access this information.

An annual statement and PIE Tax Statement will be sent to you or made available through an electronic facility before the end of June each year. These provide information such as your balance at year end, change in balance during the year, what fees you have been charged and how much PIE tax has been paid on your behalf.

You can find more information about us and the Scheme on our website [www.goalsgetter.co.nz](http://www.goalsgetter.co.nz).

## 10. How to apply

You can apply to join or transfer to our Scheme at [www.goalsgetter.co.nz](http://www.goalsgetter.co.nz).
